Secret Little Garden

Let's go out and catch some light
You best dress warm
Cos you know it gets cold at night
We'll be gone for a while

Hold my hand
Keep it tight
I need you by my side to walk this lonely road
Don't let it go

Looking back
Part of her will stay
Then she walks away

But there's still time

.....

The orange streetlights burn
A flame to dream upon
Into the deepest night
As you smile your tears away and say
Remember what I promised you
A secret little garden of our own

The walls are bare outside of town
The morning brings a loneliness you've known for years
But gone is the fear
Bruises fade into the skin
But memories might take a lifetime to erase

No looking back
The promise in her eyes
You won't let her down

But there's still time.....
